Parallel DECT Handset to Desk Telephone

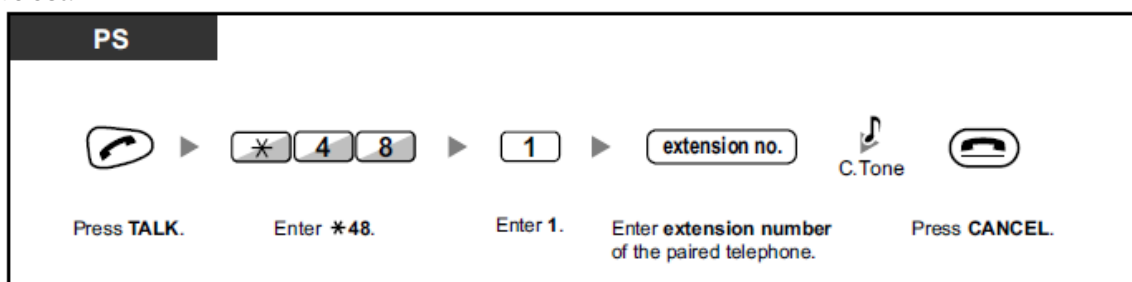

Introduction:

A Panasonic DECT handset can be used in parallel with your desk telephone. When this mode is active, any calls made to your desk phone will also ring on your DECT handset.

Note: This feature must be set from the DECT handset.

Programming Procedure:

To Set:

Note: If you go off-hook while your paralleled telephone is in use the call will switch over to that handset.

To Cancel:
