## Simplified Voice Messaging System

### Introduction:

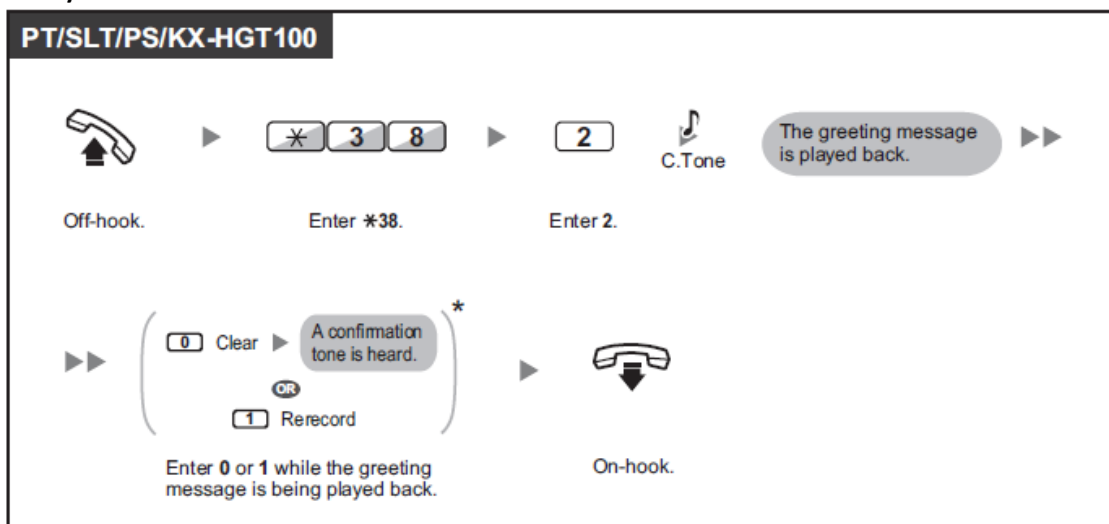

All current Panasonic PABX systems, apart from the KX-TDA30, have a basic built in voice mail system. The simplified voicemail system can also be installed in the KX-TDA30 by adding an ESVM2 card. By default there is 60min of total recording time.

### Record a normal greeting message:

#### To Record:

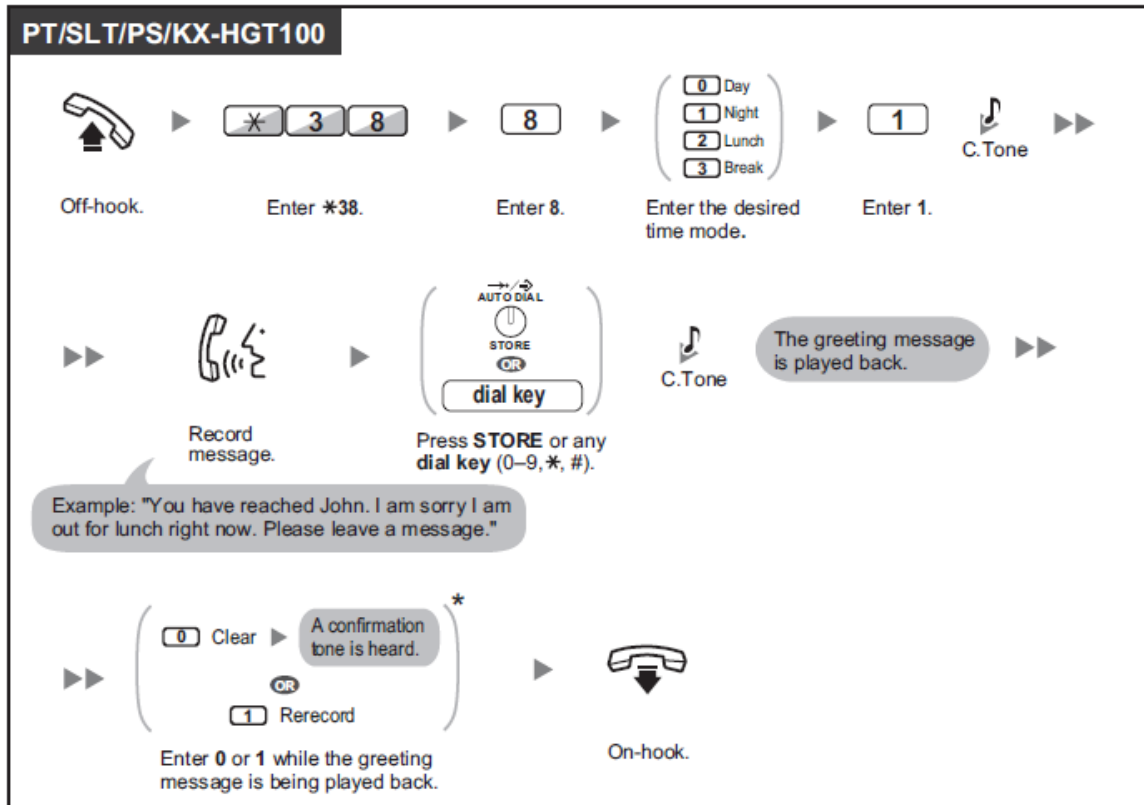

#### To Play Back:

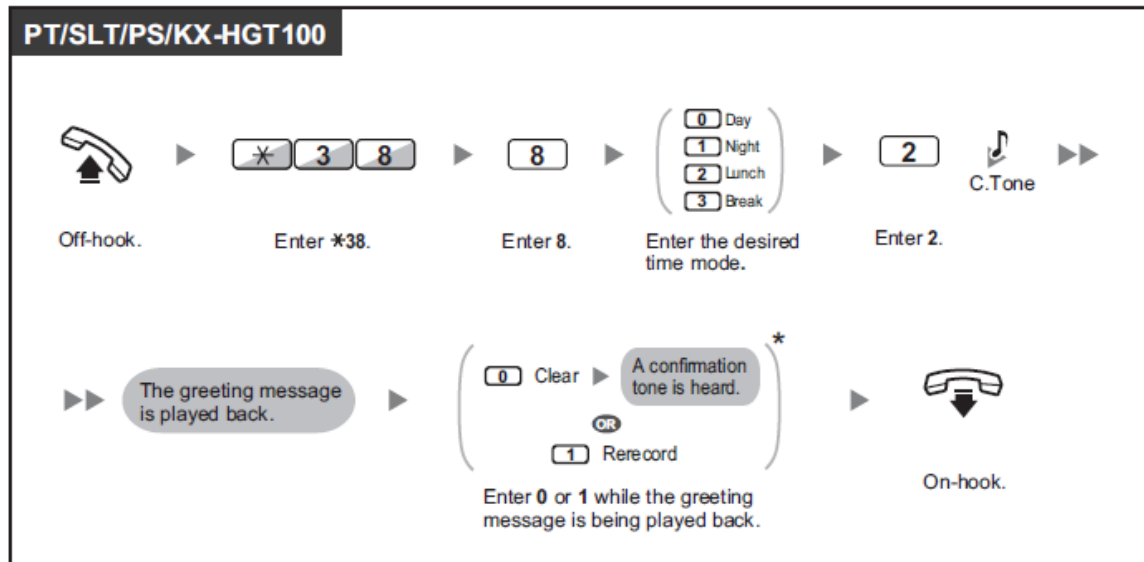

Note: \*This step can be omitted

## Record message for each time mode:

### To Record:

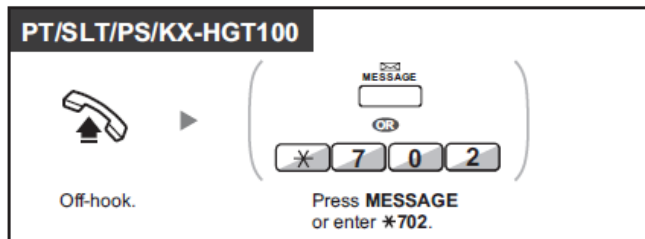

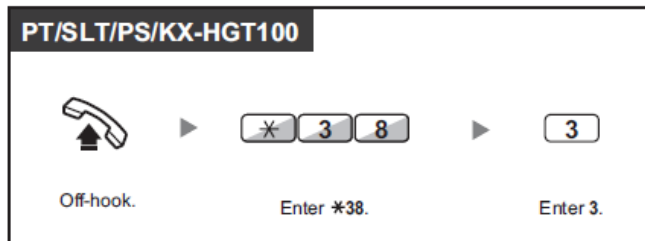

### To Play Back:

**Note:** \*This step can be omitted

## Listening to voice messages left by callers:

To Listen:

To clear the voice message you are listening to:

**Note:** The system has limited recording time. Therefore, messages should be deleted as soon as you have listened to them.
