## Conference Calls – Panasonic Extensions

### Introduction

Panasonic KX-TDA, KX-TDE and KX-NCP series systems are able to do up to a 5 party conference call (including the caller) to either internal or external parties. Panasonic NS series systems are able to do up to an 8 party conference call (including the caller). To setup a conference call from any Panasonic digital or IP extension, follow the procedure below.

### Conferencing Procedure

To establish a conference call:

To add additional parties:
