

## Customise Key Layout

### Introduction

All Panasonic proprietary telephones have flexible keys that can be programmed to perform different functions. The following procedure details how to programme the most common key types.

### Procedure

#### Programme Flexible Keys

Button	Programming Input
Loop-CO	* [ ]
Single-CO	0 + Outside line number (3 digits)
DSS	1 + Extension number
One-Touch Dial	2 + Desired number
Message	4 [ ] 0 + Extension / ICD group number
Call Park	5 [ ] 3 + Parking zone (2 digits)
ICD Call Log	5 [ ] 4 + ICD group number
Headset	6 [ ] 7
Two-way Record	9 [ ] 0 + VPS number (default 500)

#### Clear Flexible Keys
