## Setup Call Forward

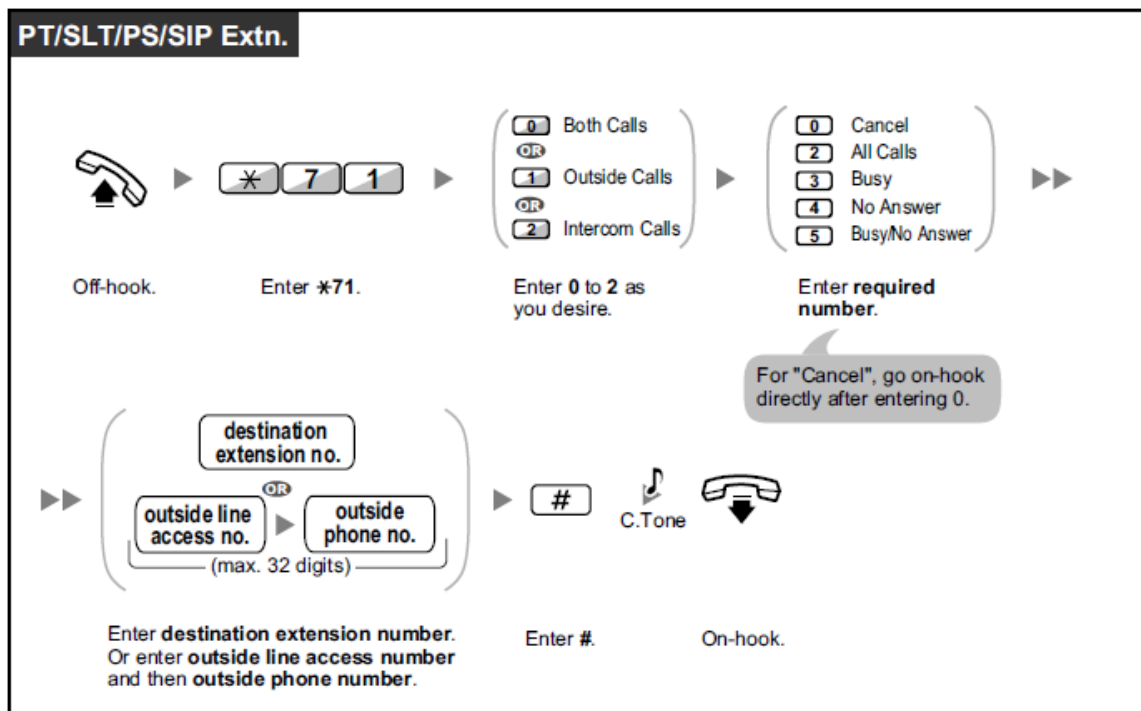

### Introduction

Call forwarding can be used to forward your phone to voicemail, an external number (e.g. your mobile) or another extension on the system. To setup forwarding your phone, follow the procedure below.

**Note: Forwarding only works on calls that come directly to your extension. If the handset rings as part of a group, these calls will not follow any call forwarding setup on the handset.**

### Procedure

To set/cancel call forwarding:

To set timer for *No Answer*:
